AQUA-CLEER®

Advanced Drinking Water Systems

EXPERIENCE THE DIFFERENCE CULLIGAN WATER CAN MAKE.

CULLIGAN® AQUA-CLEER®

Advanced Drinking Water Systems

Tailored for Your Water.

Because water quality can differ across regions, or even different homes and offices in the same town, Culligan's Aqua-Cleer system is completely customizable to your unique needs. With up to 14 interchangeable filters, the most options on the market today, there's a combination that will precisely treat your water's problem.

Not All Drinking Water Solutions are Created Equal

Regular tap water can contain many impurities*. The Culligan Aqua-Cleer Advanced Drinking Water System is the only system customized to your specific needs. With five stages of filtration and 14 filter options, Aqua-Cleer offers more filtration options than any drinking water system on the market.

The Culligan Aqua-Cleer is a drinking water filtration system with a unique and important difference: depending on what's in your water, Culligan can configure your system with Reverse Osmosis (RO), or specialty advanced filters that target specific contaminants that an RO membrane is not effective at, such as: arsenic, volatile organic compounds (VOC's), and benzene.

Great Tasting Filtered Water Provides:

- Better tasting coffee, tea and juices
- More flavorful soups, sauces and pasta
- Clearer ice cubes
- Peace of mind

*Impurities may not be in your water.

67%

WATER CONCERNS

Over two-thirds (67%)* of Americans are generally concerned about the quality of their household water supply.

Screens up to 99%
total dissolved solids

A Healthy Difference for Your Home or Office

Culligan drinking water is an easy and welcome way to help you and your family or coworkers enjoy a healthier lifestyle. With a Culligan drinking water system you will benefit from having clean, refreshing Culligan water available at any time. The Aqua-Clear system includes a drinking water faucet for your home, and is integrated with Culligan's Bottle-Free® coolers for great water at work.

Less Expensive

With each filter within the Aqua-Clear System lasting at least a year you'll enjoy a continuous supply of great tasting water for pennies a glass without the hassles of small pack or 5 gallon containers.

Going Green was Never So Easy

By using an Aqua-Clear Drinking Water System you are helping to reduce the amount of plastic bottles that end up in landfills along with decreasing the amount of oil and gasoline used to produce and deliver these bottles.

HEY CULLIGAN!

With a Culligan drinking water system, you get your own Culligan water expert. With over 80 years of water treatment experience, you can trust that they will help you find the right system to solve your water problems and bring you cleaner, clearer, refreshing Culligan drinking water.

PRODUCT SPECIFICATIONS

A. Sediment Filters

Screens out sediments and particles. Various micron size filters are available.

B. Carbon Filters

Reduces elements that cause water to taste and smell unpleasant, including the taste and odor of chlorine.

C. Reverse Osmosis Filters

Reduces dissolved substances such as radium, lead, arsenic V, and many others.¹ Various capacity membranes are available.

D. Optional Specialty Filters

Specialty filters are available that provide a range of benefits including pH balance or the removal of additional substances² such as perchlorate³, VOC⁴, MTBE, mercury and arsenic III.

E. Post Carbon Filter

A second carbon filter ensures your drinking water is clean and fresh.

F. Manifold Assembly

Molded using AlphaSan[®] antimicrobial resin, the patented single manifold ensures reliability and houses four separate filter technologies.

G. Designer Faucet

Multiple styles and colors are available. An optional monitor light on the base indicates time to change filters.

H. Reservoir Tank

Durable, high quality steel tank ensures you'll have a plentiful supply of refreshing water. Various size tanks are available.

Quality Monitor (not shown)

State-of-the-art electronics automatically monitors the water quality.

Automatic Shutoff Valve (not shown)

Shuts off the system when reservoir tank is full.

1. Consult the Performance Data Sheet for the specific contaminant reduction capabilities of this device.
2. Substances are not necessarily in your water.
3. Perchlorate cartridge is not available in California.
4. VOC is a broad term used to describe many chemicals and compounds that are known carcinogens.

THE CULLIGAN COMMITMENT

At Culligan we are committed to providing the highest quality products. Our units are tested to the highest standard and use parts that are corrosion resistant. Culligan also offers the most experienced, professional service. Since 1936, you can count on Culligan's tradition of innovation and service in the water treatment industry. A trained technician will install and program your home system. Your Culligan dealer is easy to work with as we can provide salt delivery, filter and media changes, rentals and financing is also available.

CAUTION: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Source water exceeding chemical parameters requires pre-treatment.

WARRANTY: Culligan's Aqua-Clear Advanced Drinking Water System has a Limited Lifetime Warranty (excluding expendable filter cartridges and RO membranes).
